

HAGEN & GOEBEL

Werkzeugmaschinen GmbH

Pneumatic machine vice type SO 100 version 2 with jaw wideness 100mm

- Function:** The workpieces will be clamped on pneumatic way by using our multi-cylinder type M 63 with stroke 30 mm.
- Adjustment:** The adjustment of clamping range will be done by setting of adjustment/indexing bolt and moving of moveable jaw system. (screen 30 mm).
Maximal opening size 105 mm
- Clamping force:** By using of our system multi-cylinder the clamping force can be easily adjusted. By later installing additional cells the force can be increased by user. Force range 1.650 N at 6 bar (1 cell) up to 12.500 N at 6 bar (8 cells).
- Benefits:** Guaranteed, automatic clamping of workpieces in mass production. Fast and safety clamping with always same force. Universal use in machines for boring, milling, reaming and tapping.
- Options:** Jaws in prismatic version (for round material), bigger wideness up to 125 mm, stepped jaws and floating jaws.
